Please find below and/or attached an Office communication concerning this application or proceeding.

The amendment filed on 11-19-2 is nonresponsive and has not been entered because it fails to conform to the provisions of MPEP 714.03:

Where a bona fide response to an examiner's action is filed before the expiration of a permissible period, but through an apparent oversight or inadvertence some point necessary to a complete response has been omitted - such as an amendment or argument as to one or two of several claims involved or signature to the amendment - the examiner, as soon as he or she notes the omission, should require the applicant to complete his or her response within a specified time limit (usually one month) if the period for response has already expired or insufficient time is left to take action before the expiration of the period. If this is done the application should not be held abandoned even though the prescribed period has expired.

Specifically, the obviousness-type double patenting rejection of claims 1-20 has not been addressed.

Although the claims have been checked for further deviation from 37 CFR 1.121, applicant is respectfully requested to scrutinize the claims and correct any additional errors. Since the above mentioned reply appears to be *bona fide*, applicant is given a TIME PERIOD of **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME LIMIT MAY BE GRANTED UNDER 37 CFR 1.136(a).
